

## 附件八 網站連結檢測工具及操作說明

一、線上檢測網址：<https://www.brokenlinkcheck.com/>

二、操作說明：

1. 輸入網址(不含 http:// ) → 2. 點擊「Find broken links」鍵

The screenshot shows the homepage of the 'Online Broken Link Checker' website. The page has a blue header with the title 'Online Broken Link Checker' and links for 'Follow us on' (Twitter icon) and 'Contact us'. The main content area is divided into two columns. The left column, titled 'Summary of the features', lists several bullet points: 'Checks your websites and blogs for **dead links**', 'Can scan an unlimited number of web-pages\*', 'Validates both internal and external URLs', 'Shows the location of problematic links in your HTML', 'Reports error codes (404 etc.) for all bad URLs', and 'Runs on Windows, Mac OS, Linux, Android, and iOS'. A footnote states: '\* The free version has a 3000-page limit, however there are no limits on number of hyperlinks within those webpages!'. The right column, titled 'Free Check for broken links', contains a form. A red box with the number '1' highlights the input field where a URL should be entered, with a placeholder text 'www.'. Below the input field is a small text: 'by entering your URL you agree to these Terms & Conditions'. Another red box with the number '2' highlights the yellow button labeled 'Find broken links'. Below the main content area, there is a 'Web Hosting Search' award badge for 'RECOMMENDED WEB TOOL 2012'. To its right is a quote: 'AWARD: Our service has been named One of the Best Web Tools as per WebHostingSearch.com! They wrote: "BrokenLinkCheck.com is a reliable and flexible tool. With this program, you don't need to manually search for dead links. Web Hosting Search commends the service of Broken Link Checker."' Below this is the heading 'Find and fix link problems the easy way!' followed by two paragraphs of text explaining the tool's features and benefits. On the right side of the page, there is a section 'Our featured customers:' listing logos for Citrix, Citibank, Wix, Microsoft, and Garmin, with a link 'see more clients'. Below that is a 'Testimonials:' section with three quotes from users: 'Thanks for your free software... Corrected a hundred of bad URLs and 404 errors!' from Sylvain, France; 'Thank you for your excellent facility.' from Marshall, US; and 'It works perfectly! I'm very pleased.' from Mary, Canada, and 'A very useful report!' from Petra, Germany.

RECOMMENDED  
WEB TOOL  
2012

**AWARD:** Our service has been named One of the Best Web Tools as per WebHostingSearch.com! They wrote:

"BrokenLinkCheck.com is a reliable and flexible tool. With this program, you don't need to manually search for dead links. Web Hosting Search commends the service of Broken Link Checker."

**Find and fix link problems the easy way!**

This **free online Checker / Validator** not just tells you which of your hyperlinks are **dead** but it will also show to you **where** exactly those **stale references locate in your HTML code!** This unique feature makes our checking service stand out among other available problem detection tools - by making it so easy for webmasters to [find bad URLs](#) and clean up them in no time. It's never been so easy to locate and [fix dead weblinks!](#)

This free website **validation tool** reports only hyperlinks that are **really** broken - unlike other popular tools which list both good and bad weblinks all mixed together making it very hard to comprehend and work with such "noisy" information. Also our **linking**
